PROFESSIONAL SUMMARY

Junior developer completing an AI Native Full Stack Development certification at CodeBoxx Academy, with hands-on experience building full-stack web and mobile applications using React, TypeScript, Java Spring Boot, and REST APIs. Brings 10+ years of operations, documentation, and team leadership experience, with a strong reputation for discipline, accountability, and fast learning. Specializes in AI-assisted development workflows and automation-first approaches to software delivery.

TECHNICAL SKILLS

Languages & Frameworks	JavaScript · TypeScript · Java · HTML · CSS · React · React Native (Expo) · Next.js · Node.js · Express · Spring Boot · Redux · Electron
Databases & APIs	MySQL · SQLite · REST APIs · Postman · JUnit 5 · MockMvc · Ngrok
DevOps & Cloud	Git · GitHub · Docker · AWS · Azure DevOps · VS Code · Microsoft Office · SharePoint
Testing & Automation	Selenium IDE · Playwright · Cypress · Claude API · Ollama (local AI)
Core Strengths	Debugging · Documentation · Problem Solving · Troubleshooting · Workflow Automation · Team Collaboration · AI-Assisted Development

PROJECT EXPERIENCE

Rocket Food Delivery — Mobile App

React Native · Expo · TypeScript · expo-router · AsyncStorage · Spring Boot REST API · Ngrok · Notify.EU

- Built a full mobile delivery app with role-based routing for customers and couriers using React Native and Expo.
- Integrated with a Spring Boot REST API via Ngrok for live order creation, status updates, and user authentication.
- Implemented email notifications via Notify.EU with a Gmail SMTP channel workaround.
- Debugged and resolved critical issues including user/customer ID mismatch, 400 errors on order creation, and route param typing.

CodeBoxx Event Experience — Web App

Next.js · React · Resend API · Wix-style drag-and-drop UI

- Built a stateless recruitment web app for high school events, allowing students to create personal landing pages via QR code with no login.
- Implemented a Web Page Builder with a live preview pane, widget library, drag-and-drop layout, and live code highlighting.
- Integrated Resend for email lead capture on student submissions.

Dungeon Master's Campaign Suite (DMCS) — Personal Project

Electron · React · SQLite · Claude API · Ollama (local AI)

- Designing and building a solo desktop app for tabletop RPG campaign management with dual AI integration (cloud and local).
- Using structured Claude Code agent prompts and a scoped feature spec workflow for AI-assisted development.

Rocket Food Delivery — Back-End REST API

Spring Boot · Java · MySQL · JPA · JUnit 5 · MockMvc · Postman

- Built a REST API with 60 endpoints across 11 table workflows using TDD with JUnit 5 and MockMvc.

- Documented architectural patterns: insert-then-select for native SQL, FK safety for lookup tables, and cross-domain service injection.
- Delivered a full Postman collection and AI-assisted development documentation suite.

Rocket Elevators Digital Presence

JavaScript · HTML · CSS · REST APIs · Git

- Built front-end form interactions and validation using JavaScript.
- Connected front-end features to back-end endpoints using GET and POST requests.
- Organized development with feature branches and pull requests.

PROFESSIONAL EXPERIENCE

Senior Mobile Advisor / Security Shift Supervisor

Jun 2024 – Present

Exceed, LLC – Pinellas County Job Corps Center

- Coordinate daily operational and security workflows across a multi-department campus environment.
- Maintain incident records, access logs, and compliance documentation with strong attention to accuracy.
- Supervise staff scheduling, onboarding, and structured workflow execution.

Strategic Account Representative

May 2018 – Jan 2021

Tech Data

- Supported enterprise technology accounts through onboarding, record management, and internal coordination.
- Maintained CRM data and documentation used by sales, service, and technical teams.

Associate Sales Representative

Jun 2016 – May 2018

Tech Data

- Provided operational support for a high-volume account portfolio.
- Maintained accurate order and account documentation.
- Recognized as Associate Sales Representative of the Year in 2017.

EDUCATION

CodeBoxx Academy — AI Native Full Stack Development Certification

Jun 2026

St. Petersburg College — B.A.S. Management and Organizational Leadership

Expected Dec 2027

Marine Corps Institute — Leading Marines Course

ADDITIONAL INFORMATION

- Career focus: Junior Developer, Web Developer, Technical Support, and automation-aligned roles.
- Leadership background: Former U.S. Marine Corps Corporal.
- Content creator: Produces beginner-focused development explainer videos covering LeetCode and full-stack concepts.
